

# Virality

From one to the crowd in an instance

Almost a hundred years of sociograms

**WHY?**

# Information Networks

Explicit

Implicit

Implicit networks and crisis

# Graphs

Connected components and degree distribution

Centrality

Within the context of a crisis

# How information manouvers

Information cascades

Cascades and crisis

You do play your part aswell

Nodes and their..

roles based on structural properties

roles based on information cascades

## Further research

What factors affect the emergence and existence of cascades?

How crisis networks evolve?
